Subject: Automatic Water Generation CRADAs
AWGWork Products.docx

Hi all,

I apologize for lateness, but in anticipation of our call this afternoon, here are the notes from last week's call:

- EPA attorneys are waiting for comments from Water-Gen attorneys in order to finish the Material Transfer Agreement (MTA) and other required documents
- EPA is in preliminary discussions with two other companies that may be interested in a CRADA.

Ex. 5 - Attorney Work Product

- Attached are some information on what is being produced by the CRADAs and the timeline for that

Link to CRADA announcement

https://www.epa.gov/sites/production/files/2017-08/documents/awg_announcement_2.pdf

Talk to you this afternoon!

Elise
